

# Create an Animal Registration and Movement history report in NAIT

The Animal registration and movement history report shows the full history of any NAIT animal based on animal registration details and any movements recorded for the animal.

*\*Note the location information is provided in the form of the district the animal was registered to.*

1. Log in to your NAIT account

Log on

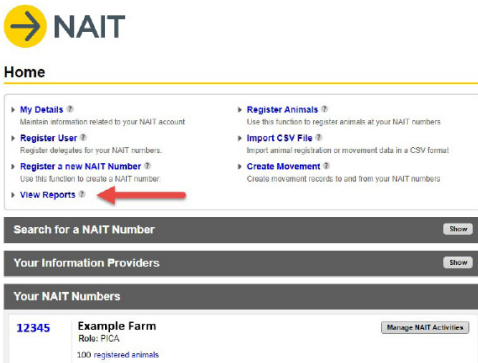

User Name

Password

[Forgot your username?](#)  
[Forgot your password?](#)

[New to NAIT? Register & create an account now!](#)

2. Select **View Reports**

Home

[My Details](#) Maintain information related to your NAIT account

[Register Animals](#) Use this function to register animals at your NAIT numbers

[Register User](#) Register delegates for your NAIT numbers

[Import CSV File](#) Import animal registration or movement data in a CSV format

[Register a new NAIT Number](#) Use this function to create a NAIT number

[Create Movement](#) Create movement records to send from your NAIT numbers

[View Reports](#) ←

Search for a NAIT Number

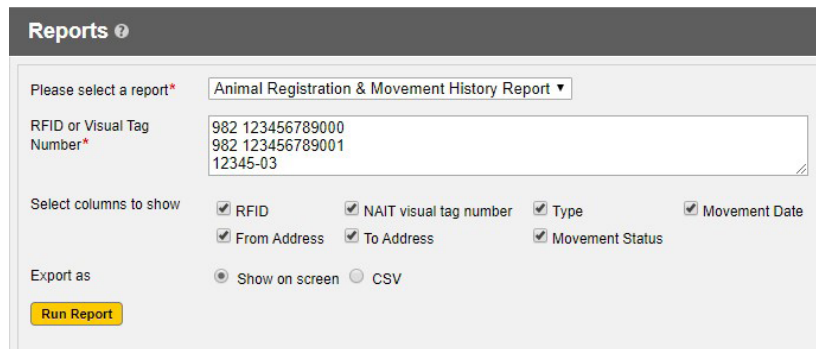

Your Information Providers

Your NAIT Numbers

12345	Example Farm Role: PICA 100 registered animals	<input type="button" value="Manage NAIT Activities"/>
-------	--	---

3. Select **Animal Registration & Movement History Report**

4. Enter the **NAIT tag RFID numbers** or **visual tag numbers**  
*Separate each tag number by a comma or new line*

Reports

Please select a report\* Animal Registration & Movement History Report

RFID or Visual Tag Number\*

Select columns to show

RFID  NAIT visual tag number  Type  Movement Date

From Address  To Address  Movement Status

Export as  Show on screen  CSV

5. Select **which columns you want to see in the report**

6. Choose how you would like the results displayed

- **Show on screen** will display the results on the current screen
- **CSV** will export the result to a spreadsheet

## READING THE REPORT

If an animal has been registered, the report will show details of the animal's registration with a full movement history.

An animal can only be registered once. Each registration and movement is represented by a new row.

You will see each location the animal has been registered or moved to/from.
